Technical Lead MSA (m/f)

For our client, a well-known pharmaceutical company in Basel Region, we are looking for an Technical Lead MSA (m/f).

Background

The Technical Lead will be responsible for implementing technical solutions to enable DIA Clinical Development and Medical Affairs business capabilities. Candidates must have strong communications skills, be team and customer-focused, with a proven problem-solving track record. Candidates must demonstrate solid software development lifecycle experience, the ability to work on cross-functional teams with both technical and non-technical team members, and a desire to learn and grow within the organization. Candidates must have strong software development life cycle experience to be able to drive and support best practice, quality, and consistency within the design and construction phases of application development. The candidate must be able to provide accurate work estimates based on business requirements analysis and deliver high-quality solutions to meet evolving business needs.

General Information

Start date: 12.07.2021

Latest start date: 01.08.2021

End date: 31.12.2021

Extension: possible

Workload: 100%

Work location: Kaiseraugst

Remote: 1 day per week

Travel: 10% (no travels planned due to COVID)
